

# Prescription Painkiller Abuse

## Common Types of Opioids and Narcotics

Opioid and narcotic painkillers can be addictive. It is helpful to know the commonly used names and brand names so you can talk with your prescribing health professional about alternatives.

Opioid/Narcotics:	Brand Name:
Oxycodone	OxyContin®, Percodan®, Percocet®
Hydrocodone	Vicodin®, Lortab®, Lorcet®
Morphine	Kadian®, Avinza®, MS Contin®
Codeine	Various Brand Names
Fentanyl	Duragesic®
Propoxyphene	Darvon®
Meperidine	Demerol®
Methadone	Various Brand Names
