

## 2019 BHC Group Delivering Value Series

BHC Group has been focused on developing a portfolio of employer solutions for member employers at preferred rates, some of which are also exclusive offerings in our market. All our employer solutions are optional – giving member employers the flexibility to access the solutions that best fit their needs.

As the number of our solutions has grown over the years, we are pleased to announce the *Delivering Value Series*, a schedule of events showcasing these solutions. Our goal is to educate employers, their advisors, providers and other stakeholders about the value of membership in BHC Group. The events are open to anyone and free to attend.
