## LEADING CHANGE. CREATING VALUE.

The Business Health Care Group (BHCG) is a coalition of committed employers brought together in 2003 by the CEOs of several of Wisconsin's largest employers concerned about the unsustainable increases in costs to provide competitive health care benefits. Leveraging our purchasing power (200,000+ lives) and the collective experience and knowledge of leading employers and best in class strategic partners, we have made remarkable progress in slowing health care cost trend – for our member employers, employees and the community.

Membership in BHCG gives employers, locally and nationwide, an opportunity to participate in moving the market through bold initiatives and to demonstrate responsible corporate citizenship. With robust support and involvement of CEOs, member employers and best in class strategic partners, we are at the forefront of efforts to improve the value of health care – both quality and cost.

Membership opportunities available in Wisconsin and on a nationwide basis.

## How and where is the best care delivered?

We use analytics to identify high and low value providers and services that facilitate dialogue with health systems and providers about adopting more effective practice patterns and value-based pricing. How do we motivate patients to consume – and providers to supply – only necessary, high value services?

Armed with data, member employers can help individuals make better choices through informed guidance from a number of different sources, including BHCG's best in class strategic partners.

<sup>II</sup> BHCG membership puts employers at the forefront of strategies that make a real difference – such as utilizing advanced data analytics to collaborate with health systems to increase health care value.
