HOLISTA

BHCG

# Why Holista?

Without predictable costs, your specialty care spend keeps rising. **Holista delivers higher-quality care at a known price, with no added cost to your plan.**

## Predictable Cost

One bundled price per episode, agreed upfront. No surprise bills, and no stacking of separate facility, surgeon, and anesthesia charges.

## No program fees

You pay for the Episode of Care. There are no PEPM, platform, or implementation fees to participate.

## We stand behind the outcome

Episodes are backed by a warranty. Any complication diagnosed in the global period is our responsibility, not your plan's.

## Quality, local providers

Every provider meets our clinical, patient experience and operational standards with a strong network right here in eastern Wisconsin.

## Members Get Human Support, Not just a Referral

A dedicated Care Coordinator guides each member from referral through recovery. We act on member feedback in real time instead of months later.

## See your savings before you commit

Our Missed Opportunity Report shows what your organization could have saved, using your own claims data.

# Every patient, guided from referral through recovery.

A dedicated Care Coordinator and the Holista App support the patient at every step— before, during, and after their procedure.

How Holista Works:

**One**

Patient is referred or enrolled into a bundled payment Episode of Care through their health plan or provider group.

**Two**

A dedicated Care Coordinator welcomes the patient, explains the program, and sets up their account.

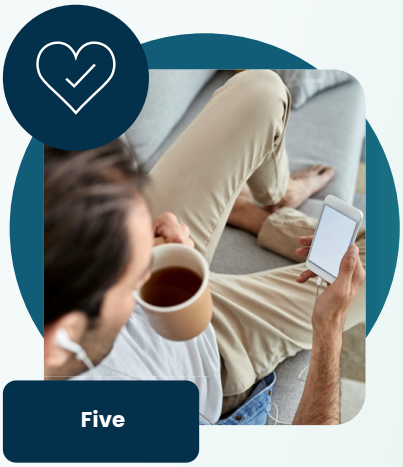

**Three**

Patient follows guided pre and post-care steps, education, and check-ins through the Holista App.

**Four**

Patient attends their scheduled visit or procedure, fully prepared through their completed Care Pathway in the Holista App.

**Five**

Patient completes their Care Journey in the Holista App with post-procedure follow-up and recovery tracking.

**30+**
Specialties

**300+**
Episodes of Care

**70%**
of employer spend covered
